PREFACE.

This volume forms the third in the order of publication printed by the Town of Weston. It gives the Tax Lists in a nearly unbroken series from 1757 to 1827, and will be especially valuable in locating and identifying individuals of whom there is no other record. The records of births are in most towns very defective; but if a man reached the age of twenty-one, and was not a pauper, the Assessors were sure to find him. Poll-taxes levied upon all males between the ages of sixteen and twenty-one were assessed in the name of the father or guardian. This fact often assists in determining relationship.

The early lists were divided into North and South Side sheets, indicating location with reference to the Great Country Road, passing through the middle of the town from east to west. These early lists were not alphabetical; but those living near each other were usually grouped together, the more recent tax-payers, especially those paying a poll-tax merely, being placed at the end.

The Voting List, prepared for the March Meeting, was made from the Tax List of the preceding year, and where the latter is missing, the former, if present, has been used as a partial substitute. The years for which there is no record are 1770, 1783 to 1787 inclusive, and 1791. With the exception of the year 1757, the Voting List did not contain the names of those who paid a poll-tax merely, such not being allowed to vote.

The Highway Tax, voted at the March Meeting, was placed on the sheets of the preceding year. This caused the dropping of some names and the addition of others, also, at times, alterations in the number of polls paid for, and the amount of real and personal estate. This will explain the frequent occurrence of the expression "for Highway only," showing that the individual in question was not taxed in the year expressed by the date of the sheet, but in the spring of the following year. In like manner, "not taxed for Highway," shows that the person was no longer a resident of the town. These expressions were not on the original sheets, but have been employed

to show what the sheets in their present form could not. Such explanations have not commonly been placed in brackets.

To save expense, the sheets have not been printed in their entirety; but it is believed that everything essential has been retained. The names are printed as written and are in the same order. The number of polls has been stated and the amounts for which a person's real and personal estate has been assessed. The number of slaves possessed by an individual has been given and the amount of money which he had at interest. A person's "faculty" or income, arising from any trade or profession, has been stated, and also the fact of a person's not paying the Minister's Tax, which until 1824 was levied by the town. Exemption from this tax was, after some opposition, granted to those who paid a tax at some other church than the one supported by the town.

On the original sheets the taxes for the Province or State, Town, County, Minister, Highway, etc., are all rated separately, with the amounts paid to each by poll, faculty, real and personal estate, while the sum total is nowhere given. If any one wishes to reproduce these, he can do so by a table placed at the end of the taxes for each year, which gives the rate of taxation.

The Invoice for 1768 is interesting for its notice of ages and birth-days. This was long a puzzle to the Editor, but the true explanation seemed to be at last reached, and is given on page 45.

The Direct Tax of 1798, given in the Appendix, is important as showing the owners and occupants of all the houses in town at that time. The map accompanying the volume will give the location of many of these.

Additional matter has usually been placed in brackets. Where a line has been drawn through a name in the original, showing that it is to be omitted, the name has been retained, and the expression [lined-out] has been employed.

To facilitate the finding of names in the Index, the first name as well as the surname has been given, and references to two individuals of the same name have been separated where the problem was not too difficult. Where a person is first called Junior, and then without the adjunct, the two names are connected by a brace. The John Brown, Jr., South Side, page 30 (called 3rd on page 34), is not the same person called John Brown, Jr., North Side, page 31. The last had been previously called simply John Brown, and obtained the new title in consequence of the coming into town of Capt. John

Brown of Waltham. Often a change in the position of the name in the list will give a hint that a new individual is meant. Very likely there are some mistakes in these divisions, and if one is in doubt he will do well to examine carefully for himself.

There were some mistakes in the original record. These, when noticed in season, were corrected by printing the true form in brackets. A mistake of this sort was discovered while making the index. The person called William Rooe on pages 45 and 54, is called W^m^ Monro on page 394. He was in town only one year, and no attempt has been made to trace him.

If we could have similar collections of tax lists from other towns, the genealogist would still have something to do, but his labor would be very much lightened.

MARY FRANCES PEIRCE.

WESTON, April 16, 1897.

TAX LISTS OF WESTON.

VALUATION, NORTH SIDE, 1757.

[Until 1810, the Tax Lists were made out in two parts, called the North Side List and South Side List. The Great Country Road was the dividing line. The two Valuation Lists, made December, 1757, were made from the tax lists of that year, which are now missing. These two sheets probably contain all the names that were on those lists, since even those who paid a poll tax only are here recorded. This is the North Side Voting List, prepared for March meeting, 1758. — Ed.]

The Highway Tax on this list was voted March 7, 1768.
For Highway Districts, March 25, 1768, see Appendix. — ED.]

[NOTE. — There is neither date nor title to the following schedule; but it was, without doubt, the invoice made according to the order of the Court, as recorded in the Province Laws, Vol. II., p. 985. It was ordered that the invoice should be estimated according to estate, April 10, 1768, and should be sent in, June 1, 1768.

The order of names is the same as that of the tax list of 1767, omitting the names of one or two who had died or gone away.

The two columns at the right hand were without headings, and probably formed no part of the original paper. The last contains the valuation of real estate as returned by the assessors in December, 1767. The other seems to represent ages and birthdays, not, however, all calculated to the same year apparently.

After the Invoice Sheet had served its purpose, it was probably utilized by a committee chosen by the town, Nov. 30, 1767, to "Seat the Meeting-House by the following rule: Viz: twenty Shillings a year to be allowed for age and the Last years valuation of Real Estates" (Town Records, p. 136). March 5, 1769, it was voted not to accept the report of the committee (Town Records p. 153). — ED.]

[General Invoice. Account estimated according to estate, Apr. 10, 1768. To be sent in, June 1, 1768. See Prov. Laws, Vol. II. p. 985.]

THE DIRECT TAX OF 1798.

[The following paper is condensed from the Direct Tax of 1798, which is now in the possession of the New England Historic-Genealogical Society, Somerset Street, Boston. This tax was levied by the United States Government, and was the only one so levied previous to the War of the Rebellion, with the exception of those for the years 1813 and 1815.
There are two sets of sheets. The first has the following title. — Ed.]

General List of all Dwelling Houses, which with the Out Houses, appurtenant thereto, and the Lots, on which the same are erected, not exceeding two acres in any case were owned, possessed or occupied on the 1st day of October 1798, within the Assessment District No. *five* in the *fifth* Division of the State of Massachusetts, exceeding in Value the Sum of one hundred Dollars.

[Weston, Waltham, and Newton constituted District No. 5.
The second set of sheets had the following title. — Ed.]

General List of Lands, Lots, Buildings and Wharves, owned, possessed and occupied on the 1st day of October 1798, within the Assessment District No *five* in the *fifth* Division of the State of Massachusetts, excepting only such Dwelling Houses, as, with the

Out Houses appurtenant thereto, and the Lots on which they are erected not exceeding two Acres in any Case, are above the Value of one hundred Dollars.

[The first list, then, contained the dwelling-houses, which, with less than two acres of land, exceeded in value one hundred dollars. The second contained the remaining land and all dwelling-houses whose value, with less than two acres of land, was less than one hundred dollars. As the names are nearly the same, the two lists have here been combined into one. The additional land of the second list has generally been made to commence with the word *also*. On the second sheet a deduction of ten per cent was allowed by the Commissioners on the value of the land as returned by the Assessors.

The lists give the names of the owners of the houses and lands and the occupants. There were in Weston, Oct. 1, 1798, one hundred and thirty-five houses. One of these, owned and occupied by Rev. Samuel Kendal, was, with the land owned by him, exempted from valuation. Fourteen with the land on which they stood, less than two acres in each case, were less than one hundred dollars in value. These were together valued at $881.

There were 120 dwelling-houses, with 69 acres 123 perches of land, valued at $54,541. There were also 39 out-houses. There were also 9,609 acres and 95 perches valued at $204,732. A ten per cent reduction made this $184,259.03.

Dr. Kendal had 125 acres and 80 perches exempted, beside the 80 perches with his house.

This amount of land is not precisely the same as that given on the map of 1794-96. That gives 700 acres more.

The sheets were signed by Artemus Ward, Principal Assessor, and Abner Sanderson, Ebenr Hobbs, Ebenr Woodward, and Joseph Jackson, Assistant Assessors. All but the last two were from Weston. — Ed.]
